THE LIVE STINGRAY ENCOUNTER SWIMS INTO PORTERVILLE

(Porterville, CA) – Experience live stingrays at the 2025 Porterville Fair. Get up close and personal with the graceful Rays as they glide through the water. Fair guests will have the opportunity to safely view and touch the wonderful creatures and receive a hands-on educational experience. Not often do you find sea life in Porterville!

This wonderful exhibit is an all-day interactive exhibit featuring knowledgeable educators to teach and share real life experience with the Rays. This is the world's only traveling, self-contained Stingray Exhibit!

Stingray fun facts:

- Stingrays are carnivores
- Stingrays move flapping their wings
- Stingrays are closely related to sharks
- Female stingrays are larger than male Stingrays
- Stingray babies (pups) are born fully developed
- There are more than 200 species of Stingrays
- More than 25 Stingray species are endangered

You will find the beautiful stingray exhibit anchoring the food court at the Fair providing a seaside worthy relaxation station. The exhibit and touch pool will be open during general fair hours closing for a few short breaks throughout each day. It will be a great space to fill your tummy, sit back and relax, touch a Stingray and learn a little along the way!
